

PARTH GARGE

Data Scientist

☎ 7420840822 ✉ parth94@gmail.com 🔗 LinkedIn 🌐 GitHub 📍 Pune, India

PROFESSIONAL SUMMARY

I am an aspiring Data Scientist with strong foundations in statistics, machine learning, and data visualization. Passionate Generative AI Engineer with expertise in large language models (LLMs), prompt engineering, and deep learning frameworks. Strong background in NLP, model fine-tuning, and AI-driven product development.

EDUCATIONS

MIT World Peace University Pune, India <i>Msc Data Science And Big Data Analytics</i>	Aug 2025 - Aug 2027 CGPA : 8.71
Symbiosis Skills and Professional University Pune, India <i>Bachelor of Science in Data Science</i>	Aug 2022 - Aug 2025 CGPA : 8.70
Nowrosjee Wadia College Pune, India <i>Class XII</i>	Mar 2022 Percentage : 61.1
Prerna Secondary & Higher Secondary School Pune, India <i>Class X</i>	Mar 2020 Percentage : 90.8

WORK EXPERIENCES

Gen AI Engineer Intern Internship <i>Marva.AI & Innovation for Good</i> - Led data-driven initiatives in Generative AI, including fine-tuning large language models (LLMs), implementing Retrieval-Augmented Generation (RAG) pipelines, and developing custom transformer architectures. - Collaborated with cross-functional teams to build tailored AI solutions, empowering clients with actionable insights and improving decision-making across complex domains. Technologies / Skills Used : <i>Agentic AI , Gen AI , LLM Finetunning, RAG</i>	Jan 2025 - Jun 2025 Hybrid • Pune, India
Project Trainee Internship <i>Nihilent</i> - Internship focusing on as Project Trainee in Gen AI. - Collaborated as part of a team to enhance a chatbot's performance through advanced data analysis techniques. - Worked on Anomaly Detection using the Isolation Forest algorithm to find unusual patterns and outliers in data. - Contributed to Root Cause Analysis and What-If Analysis to uncover insights and potential impacts on key performance metrics. Technologies / Skills Used : <i>Gen AI , Anomaly Detection, Root cause analysis</i>	Jun 2024 - Aug 2024 On-site • Pune, India
Data Analysis Intern Internship <i>Vknow</i> - Internship focusing on data analysis and visualization. - Analyzed the data for their sales in the right way. - Helped the company to handle their sales data systematically and organized the details of their sales and clients. Technologies / Skills Used : <i>MS Excel , Data Analysis, Data visualization</i>	Jun 2023 - Aug 2023 Hybrid • Pune, India

PROJECTS

Itinerary Planner: An Intelligent Multi-Agent System

Oct 2025 - Dec 2025

Team Peoject

- AI-powered multi-agent travel planning system that automatically collects real-time data (flights, hotels, weather, attractions) and generates a personalized, day-by-day itinerary based on user preferences.
- Designed to reduce manual effort by integrating intelligent agents, APIs, and LLMs to deliver a complete, shareable travel plan in a single, user-friendly format.

Technologies / Tools Used : LangGraph, API, LLM, Multi-Agent System

Email Generator AI Agent

Jan 2025 - Feb 2025

Lead Developer

- Developed an Email Generator and Responder utilizing Large Language Models, Retrieval-Augmented Generation, and Web Search.

Technologies / Tools Used : Agno - Agent Framework , LLM , RAG

Chatbot Optimization Project – Nihilent

Jun 2024 - Aug 2024

Internship Project

- Optimized chatbot performance through advanced data analysis techniques, improving decision-making capabilities.

Technologies / Tools Used : Root Cause analysi , Anomaly Detection, Chatbot Optimization, LLM

Vardant AI

Team Peoject

- AI-powered smart agriculture system integrating IoT sensors with ML/DL models to provide real-time crop, fertilizer, disease detection, irrigation, and weather-based recommendations through a unified web platform.
- Designed to enable data-driven farming by automating decision-making, improving yield, optimizing resources, and offering an interactive multilingual dashboard with AI chatbot support.

Technologies / Tools Used : IoT , Arduino UNO, DHT11 Sensor, Soil Moisture Sensor, Machine Learning, Deep Learning , LLM, API

SKILLS

Databases :	MySQL, MongoDB, SQLite, Vector Databases
Frameworks & Libraries :	Generative AI, LLM, Data visualization, Machine Learning, Agentic AI , RAG , Anomalies Detection , Root Cause analysis
Languages :	English, Marathi , Hindi, German
Programming Languages :	Python
Soft Skills :	Teamwork, Creativity
Tools & Platforms :	Tableau, Git

CERTIFICATIONS

German Certification - Level 1

- Successfully completed a comprehensive German language course at Level 1 from Pune University, focusing on fundamental language skills including vocabulary, grammar, pronunciation, and basic conversational fluency.
